plans?

Still working on it

I imagine PMo is fine no one responded

We're good to go

Brodhead would like to reach out to premiers office on it. We'll get read out from Omar's convo and then he will call them.

Can you make sure Marco is briefed on it?

Ben says the way we should communicate it is that we are elevating the work that has already been happening with officials to identify resources to best support Ottawa so they can address the situation given the state of emergency.

I'm talking to PO on another RFA (FN ) so happy to do whatever there's
